Existing Conditions

Concept Plan for Union Pier Waterfront - an illustrative concept

***Connects Charleston's
neighborhoods to the water.***

***Removes 200 cargo ships,
trains, tracks and trucks.***

***Extends Market Street
to the waterfront.***

***Restores a natural
shoreline.***

***Creates green spaces
and view corridors.***

***Stabilizes Bennett's
Rice Mill.***

***Provides public and
private uses.***

***Creates jobs and
economic vitality.***

What We Heard

- Vehicle Circulation & Parking
- Connecting the Terminal to its Surroundings
- The Building's Design

VEHICLE CIRCULATION AND PARKING

- ✓ improves traffic flow
- ✓ addresses street closures
- ✓ provides multiple access points
- ✓ removes fences
- ✓ makes parking areas attractive
- ✓ moves drop-off to south side

CONNECTS THE TERMINAL TO ITS SURROUNDINGS

- ✓ intensive landscaping
- ✓ looks like Charleston
- ✓ has appropriate lighting
- ✓ reduces industrial 'feel' of the area
- ✓ works to reduce noise

PORTCHARLESTON

A presentation of the South Carolina State Ports Authority

THE BUILDING'S DESIGN

- ✓ contextual to Charleston
- ✓ presents a low profile, yet is visually fitting and interesting
- ✓ celebrates, interprets and connects with Charleston's maritime heritage
- ✓ uses sustainable materials and practices
- ✓ uses building and landscaping materials relevant to Charleston

What We Heard
